Range features:

- Available as small table top machines or full free standing model
- With cold ambient and hot water dispense this makes for a low cost beverage service for the smaller office when used in conjunction with our In-cup branded coffees, teas, soups and hot chocolate. Extra hot function on this model.
- We fit in-line filtration systems to remove any impurities from your mains water supply. The filter system is fitted inside the base cabinet for a neat and tidy installation.
- Auto temperature controller acts as a thermostat to ensure cold water is kept at a refreshing temperature and the hot is a warming supply for traditional beverages.
- Our installation includes advanced water block protection that switches off the water supply if on the rare occasion a continuous leak is detected.
- Easy to remove drip tray for easy cleaning with drainage to internal bucket or mains waste.
- Bright On /Off neon indicator lights to clearly show if machine is ready for use.
- High throughput of 12 litres per hour for a continuous supply of chilled water.
- Built in cup dispenser and base storage area.
